The Quest Tarot

by: Joseph E. Martin

Joseph Ernest Martin (California) has been a professional Tarot reader for more than fifteen years. He is also a professional artist and art director, with more than sixty-three design awards.

The first tarot that's as easy to use as a car with an automatic transmission. The Quest Tarot takes an innovative leap in tarot design, making the tarot instantly accessible to beginners, and providing a profound depth of imagery for experienced readers.

This deck is the first that allows you to use the tarot like a Ouija board, getting answers to yes/no questions and spelling out words, names, and phrases. The cards also contain gems and stones; suit, month, and season indicators; eye, hair, and skin color; hebrew letters; rune symbols; and astrological symbols. Plus, the addition of the Multi-Verse card extends the Tarot beyond the Universe card into quantum realities.
